YEAR:

2026

The 2026 Adria Compact Max is the next generation of slim-fit motorhomes, designed to combine style, agility, and comfort in one versatile package. Built on the Volkswagen Crafter base vehicle with a fully digital cockpit, the Compact Max offers a premium driving experience with the freedom to reach places larger motorhomes can't. Despite its compact dimensions, the interior feels spacious and inviting, thanks to the 'Fluent' design language, pairing alpine white cupboards with elegant, contemporary furniture finishes. The open-plan layout is enhanced by an opening panoramic window, creating an atrium-style living space filled with natural light. Comfort comes as standard, with Truma heating providing optimised climate control, while clever design touches such as the flexible removable dinette table with extension and side table make the living space adaptable for dining, working, or relaxing. Practicality is further supported by thoughtful entertainment...
