YEAR:

2027

The 2027 Adria Supertwin 600 SPB is a campervan for those who want to do things a little differently. Combining the unmistakable presence and capability of the Mercedes-Benz Sprinter 4x4 with Adria's beautifully designed living space, it offers a rare combination of adventure, luxury and everyday usability. At just under six metres long, the 600 SPB is remarkably easy to drive and manoeuvre, making it just as comfortable navigating city streets and country lanes as it is heading off on a long-distance European adventure. Underneath, the 190bhp Mercedes-Benz diesel engine, 9G-Tronic automatic gearbox and permanent 4x4 drivetrain provide effortless performance and confidence in all conditions. The Supertwin certainly looks the part too. Its purposeful exterior design, raised stance, alloy wheels and rugged tyres give it a distinctive character, while the Mercedes-Benz base vehicle provides the premium driving environment you'd expect from a vehicle of this calibre.
